

# Town of Lovettsville

## \*\*\*Lovettsville Storm-Related Updates\*\*\*

July 2, 2012

Following are updates for the Lovettsville area following Friday's storm:

**\*Water & Sewer Service:** The Town's water and sewer service is fully operational. There was no interruption in service and there are no water safety concerns as a result of the storm.

**\*Utilities:** Utilities in Town are back online; however, many of our neighbors outside of Town are still without power.

**\*Yard Waste Debris:** The Town is working with American Disposal on arrangements for the collection of yard waste debris. We will send a follow up email with additional information as soon as it is available. In the meantime, American Disposal will pick up bundled yard waste debris that is less than 5 feet in length as part of the regular trash collection on Wednesday, July 4th.

**\*Cooling Center & Showers:** The Community Center is available as a cooling center between 7:00 AM and 7:00 PM. Free showers are also available at the pool between 8:00 AM and 7:00 PM.

**\*Water for Household Use & Animals:** Water is available at the Community Center and the Lovettsville Fire and Rescue Station. The Fire Station also has a limited supply of ice for medical needs and emergency use.

**\*Town Flag Pole:** The Town's flag pole was damaged by the storm. If you notice any other major damage that the Town needs to address please contact Town Hall.

If you have any questions or need further assistance, please contact Town Hall at 540-822-5788.
